### Spanish Conversation

Spanish Conversation is a class designed for students who want to improve their communicative proficiency in Spanish. It will also provide exposure to the other language skills (reading and listening- comprehension, vocabulary acquisition, socio-cultural competence) necessary to develop speaking fluency. Grammar points will be explicitly taught based on the texts and on issues that arise in class.

We will study current news and stories (both on video and in text) covering various topics from different parts of Latin America and Spain. This will provide the student with a more thorough perspective of the real Spanish used in formal and social contexts. Poems will also be read and discussed in the beginning of class.

All assignments and resources will be housed through the Canvas platform. (which is free) Each student will need an email account to register.
