

### Lesson Guide

**Recap-** What do I remember last time? If stuck take a quick peek of notes and then try to remember.

**Read-** Skim lesson and figure best breaks to stop. Are there bolded sections? Stop before the next one.

When I can't hold any more information, narrate a portion before moving on. Decide best way to narrate.

If I start drifting, I will refocus and give my full attention.

### NARRATION IDEAS

Make a list, bullet points, concept map, summary, diagrams, pictures, Q&A.

This is for you to understand the material and to explain it in *YOUR* words.

As I read, if I find **dates** or **quotes** I like, I put a sticky in that spot to use for my commonplace & BOC. Is there a **virtue** I'd like to copy? I'll place a sticky as a reminder for my virtue chart.

Do I have a question? Did this bring up an idea I want to research or spend some time on? Write on my notepad to go back later.

**Wrap Up-** Any links, maps, pictures to view?
